Project approach and timing:

We propose to design, develop, and maintain the website and ecommerce system of for our **clients**. We are proposing a comprehensive package that includes designing a cutting-edge website or maintain for **clients**, complete with all its web pages and sub pages, fast loading web pages, clear visuals, and basic search engine submission and optimization.

Upon the start of the project, **Desi Medievals** Interactive will design 3 sample website layouts for your approval. Once approved, we will start developing the website using modern web techniques.

Web Development Timeframe – the time period for developing the website will range from 3 to 5 weeks, depending on the number of pages

Payment Terms – We require a 30% downpayment upon the start of the web design project, and the remaining 70% upon completion of the project.

Revisions – We could make revisions to your website after the design has been completed. We work closely with all our clients in making sure their websites are up-to-date.

Pricing – Depending on the functionality of website.

Team and Project Management Structure:

Rpd Infotech has a team of dedicated professionals. Each employee receives extensive technical and customer service training to ensure that you always receive friendly and accurate responses. All

representatives have extensive technical background in handling websites and managing networks. They have been also trained in the languages of HTML, Javascript, PHP, ASP, and more.
